

Thank-you WILPF !

Alycia (longriver) Davis, Cape Cod WILPF Branch

I'm Stage 4 cancer, hospice, spiritually at peace with last months upon Mother Earth, but certainly not with political and judicial events unsettled.

During 71 years here I've been active, as a voice for earth and the family of people.

In 1995, was part of a Native guided walk Cape Cod to Hopi Land, AZ, with themes of *Respect earth, Respect all people*.

Walking 20 miles daily, over 6 months, speaking with schools, colleges, NP groups, United Nations, EPA's, Gandhi Institute, Civil Rights Museum-, others. Praying at Baltimore slave docks, Civil War field, along The Trail of Tears, OK City bomb site.

After walk, travelled more, speaking.

With retirement, moved to Cape Cod, joining WILPF, working with branch for various events.

Wonderful years until 2016 cancer start, causing move off-Cape for family, support.

Continue the work of peace Sisters. Do not become discouraged. Any day I have energy, I send out my books of peace to users freely.

I have not quit, so please don't either.

Deep thanks to all of WILPF.

In peace, love- alycia (alyoops @comcast.net)
